The Missouri Department of Insurance, Financial Institutions & Professional Registration (DIFP) investigates complaints made by Missouri consumers who feel they have been treated unfairly by an insurance company. A by-product of this effort has been the creation of a detailed database documenting many years of consumer concerns. This report presents data on complaints against insurance companies received by DIFP between 2008 and 2010, and that were closed as of time of writing in 2011. Three years of complaints are pooled for each report to ensure that data are statistically credible. All complaints are included, regardless of how the complaint was resolved.

Complaint data is presented in four sections:

- Complaints by line of business
- Complaints by reason
- Complaint indices reported for the top 40 writers by line of business
- Complaint indices for all companies, by line of business

Eight business lines are included:

- Total property and casualty (excluding accident and health
- Private passenger automobile
- Homeowners (including farm, mobile home, and personal fire and allied lines
- Life and annuity
- Accident and health
- Long term care
- Medicare supplement
- HMOs

Complaint indices compare the ratio of complaints to premium for each company to the industry average, for each line of business:

$$\frac{\frac{\text{Company complaints}}{\text{Company premium}}}{\frac{\text{Industry-wide complaints}}{\text{Industry-wide premium}}} * 100$$

An index of 100 indicates that a company received complaints at a rate equal to the industry average. An index of 10 indicates that a company's complaint ratio is only 10 percent of the industry average, while an index of 235 indicates a complaint ratio is 135 percent greater than the industry average. Indices are capped at 9,999.

Companies are identified by a unique code assigned by the National Association of Insurance Commissioners (NAIC). Companies that have had their licenses *suspended* or *terminated* are identified in the report. These companies are not currently active in Missouri, but are included so that complaint totals are accurate. Complaints against companies that have subsequently merged are counted against the surviving company.
